

Essen 2016 game mentions list - 2016-10-23

Info

Game mentions are calculated from the geeklists found at [The excellent 2016 lists list](#).

The real work behind this is done by Hilko Drude and the people submitting lists. This document is just an aggregation of those lists.

Note: if you see some odd fluctuations in the numbers, it is most likely due to geeklists being filtered out from the basis of the aggregation. Release lists, trade lists, etc. will be filtered out, as they do not reflect actual interest in games.
